GURU

KNOWLEDGE IS POWER

Welcome to the future of angling innovations! GURU is a range of safe, uniquely designed & revolutionary products aimed at commercial water carp

fishing. Designed in conjunction with Steve Ringer & Alex Bones. GURU's advanced product designs,

innovation and intimate attention to detail will make your angling more efficient and successful.

X-SAFE ELASTIC SYSTEM

A perfect example of GURU's innovation is our X-SAFE ELASTIC SYSTEM, the only safe elastic feeder system available!

Use in conjunction with our groundbreaking Pellet and Method Feeders.

GURU X-SAFE offers all the benefits of elastic to help minimise hook pulls and cushion your rig, while being as safe as an in-line set up! Available in two lengths, long and short, allowing you to tailor your GURU feeder to any situation. Spare elastics & tubes are also available separately.

Plus, there's many more innovative products in the GURU range...

INTRODUCTION

GURU
KNOWLEDGE IS POWER

METHOD FEEDER

The most advanced Method feeder ever produced! GURU's unique bait platform provides optimum positioning of the hook bait in the Method ball, while weight-forward loading and a tapered frame shape increase casting distance and accuracy. The special frame colour provides camouflage on the lake bed, while the solid & vented X-shape arms give optimum grip for pellets and groundbait. A fully interchangeable tube system and quick change GURU Clip allows you to switch feeder sizes, tube lengths and feeder styles instantly while fishing. Available in X-SAFE (safe elastic) and In-Line versions, making this the most versatile feeder system available!

- FEATURES**
- 2 SIZES (SMALL 24G & LARGE 28G)
 - X-SAFE ELASTIC & IN-LINE VERSIONS
 - HOOK BAIT PLATFORM
 - WEIGHT FORWARD FOR INCREASED CASTING DISTANCE
 - INTERCHANGEABLE TUBE SYSTEM
 - CAMOUFLAGE COLOUR
 - X-SHAPE SOLID ARMS

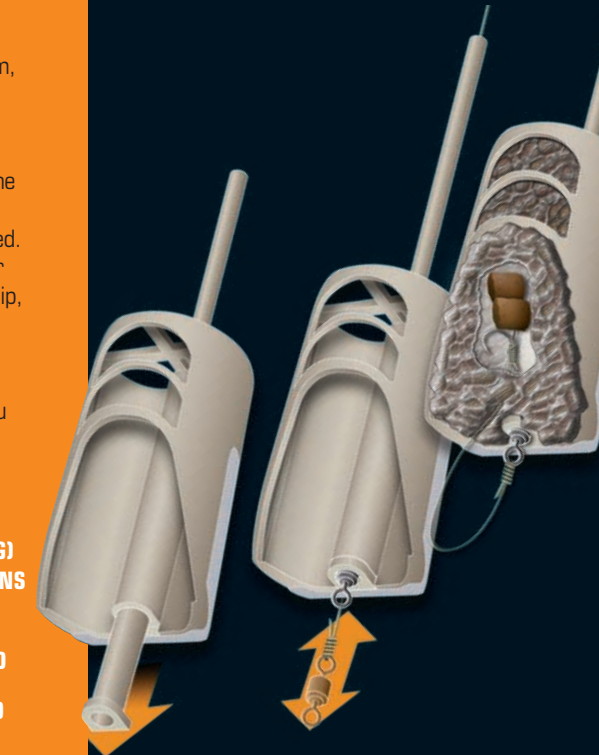

PELLET FEEDER

Innovative design brings this devastatingly effective method within easy reach of every angler! For use with softened pellets up to 4mm, GURU Pellet Feeders offer the angler an alternative approach.

Thanks to weight forward loading they cast further than any other pellet feeder available. The revolutionary frame design is easy to load and offers rapid release of the pellets on the lake bed. Like the method feeder, the GURU Pellet Feeder System incorporates the unique quick change clip, so feeder size, tube length and style can be changed instantly when you have feeding fish in your swim. The most versatile feeder system available is available in two versions allowing you to capitalise on both the X-SAFE (safe elastic) and in-line options.

- FEATURES**
- 2 SIZES (SMALL 24G & LARGE 28G)
 - X-SAFE ELASTIC & IN-LINE VERSIONS
 - EASY LOAD & SUPER-FAST BAIT RELEASE
 - FOR USE WITH ANY SOFTENED FEED PELLETS UP TO 4MM
 - WEIGHT FORWARD FOR INCREASED CASTING DISTANCE
 - INTERCHANGEABLE TUBE SYSTEM
 - CAMOUFLAGE COLOUR

SPEEDMESH PVA SYSTEM^{7M}

The fastest melting PVA mesh available! Designed specifically to cope with the demands of modern commercial water fishing. GURU's inner tube features a scoop-shaped end for rapid bait loading making the production of PVA bags and sticks quicker than ever!

Supplied in a fully water-tight outer tube to keep the mesh in tip top condition when not in use and a plunger handle to enable baits to be tightly compacted in the PVA.

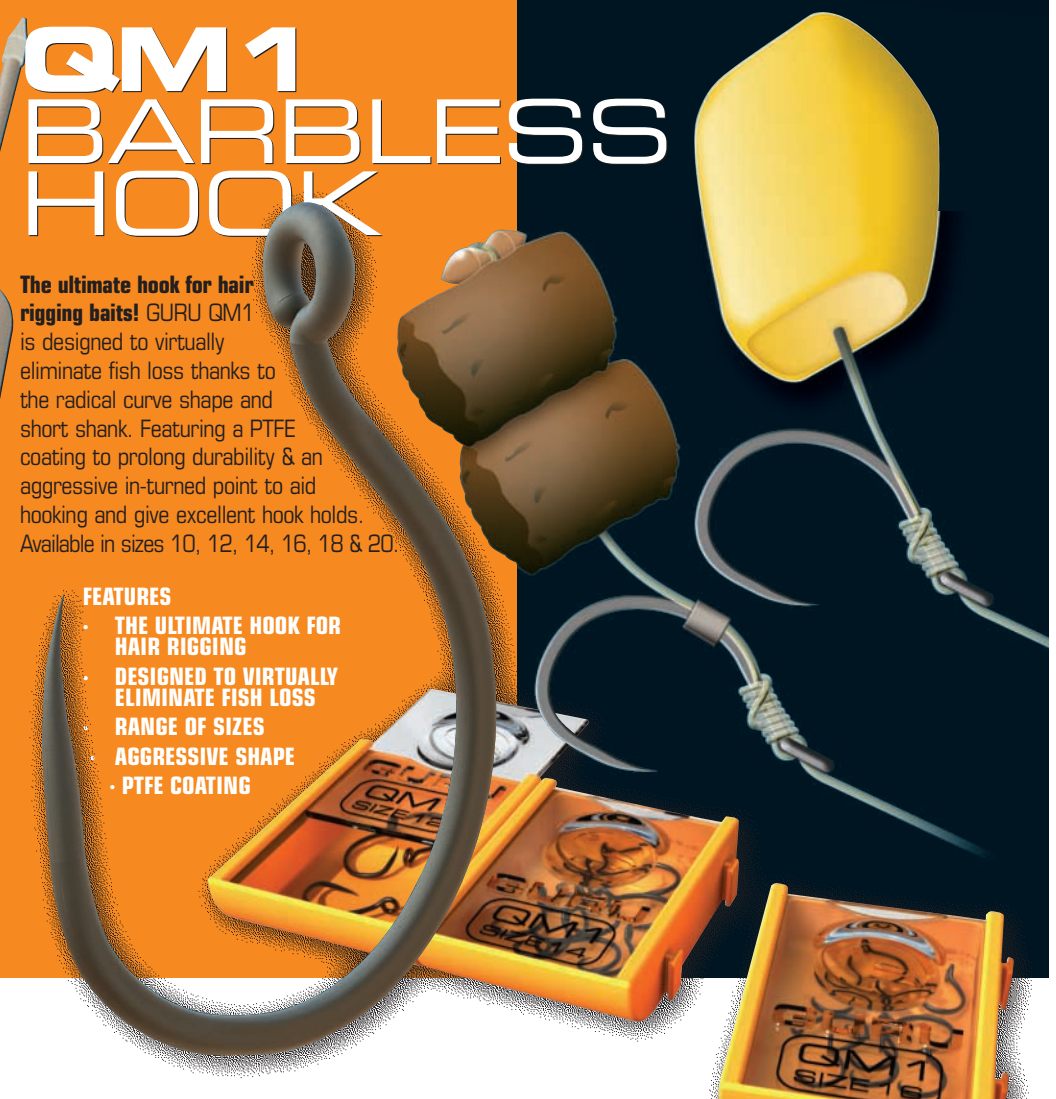

- FEATURES:**
- FASTEST MELTING PVA MESH AVAILABLE
 - SCOOP-SHAPED INNER LOAD TUBE
 - WATER-TIGHT STORAGE SYSTEM
 - PLUNGER HANDLE SUPPLIED
 - 5M REFILLS AVAILABLE SEPARATELY

QM1 BARBLESS HOOK

The ultimate hook for hair rigging baits! GURU QM1 is designed to virtually eliminate fish loss thanks to the radical curve shape and short shank. Featuring a PTFE coating to prolong durability & an aggressive in-turned point to aid hooking and give excellent hook holds. Available in sizes 10, 12, 14, 16, 18 & 20.

- FEATURES**
- THE ULTIMATE HOOK FOR HAIR RIGGING
 - DESIGNED TO VIRTUALLY ELIMINATE FISH LOSS
 - RANGE OF SIZES
 - AGGRESSIVE SHAPE
 - PTFE COATING

GURU

KNOWLEDGE IS POWER

Not only will GURU lead the way in safe Method and Pellet feeders, PVA Systems and Eyed Hooks the range also offers a whole host of other components and accessories to improve any angler's fishing.

MICRO LEAD CLIPS

The ultimate in rig safety. Designed specifically for the safe set up of feeders and leads for commercial water carp fishing.

DRAG-LINE

Super tough reel line to cope with the demands of modern commercial carp methods. 4lb, 6lb, 8lb, 10lb, 250m per spool.

SQUARE LEADS

Three sizes of square shaped leads designed for fishing on sloping lake beds (1/3oz, 2/3oz & 1oz).

RIG SCISSORS

Super sharp, fluorescent orange handled blades for rig making.

BAITING NEEDLE

Ultra fine baiting needle designed to minimise damage to any hook bait when using hair rigs.

SPEEDMESH NEEDLE

Gate latch needle for threading PVA bags and sticks onto hooklengths.

... Plus much more! Look out for the GURU boards in your local dealers.
